The RSF ONE Mobile is a fully CDM and HSE compliant mobile unit, that can be delivered without the need of a Large HIAB for those difficult to access locations. The RSF ONE Mobile is fully sufficient, providing comfortable facilities for up to 6 people in a unit that is only 3.6m long (excluding coupling). The Mobile is powered by a 12v battery enabling LED lighting and heating to operate without the use of a generator, which is only required for hot water, microwave and the kettle, this significantly reduces running time and consequently running costs and emissions.

Secured in less than 3 minutes

Easily towed, one man operation secured and manoeuvred on site. Its many safety features make it a highly secure and money saving choice of welfare unit for contractors.

Unhitch from towing vehicle and operate hydraulics using the push button controls

Lower unit to the ground and unplug controls

Close & lock canopy to protect towing facility
